### Notes

Robert Hunter comments on the origin of the Amagamalin Street Suite in *Box Of Rain: Lyrics 1965 - 1993*;

The idea for Amagamalin Street occurred to me while leaning against a building on Fifth Avenue. I was in one of those ego-flattened mindframes that visit my West Coast psyche when confronted by Manhattan

I began thinking about the values people must assign to themselves, and believe in despite all evidence, in order to cope with the giganticism of Metropolis. I saw a drunk on the other side of the street making a show of himself - and began inventing his story. I had a pencil but no paper - not a problem in New York; I picked up a handbill in the gutter for a show at the Apollo, and began to write on the back of it.

These notes then continue with a song by song synopsis - buy the book if you want to read that.
